### Strengthen your brand

Enhance standard envelopes into eye-catching branded mail pieces with unlimited customised logos / slogans.

### Fast accurate postage re-crediting

Replenish the Parcelsend 24-hours a day with simple one-touch refills quick, secure and hassle-free.

### Keep an eye on postage costs

INVIEW™, the web-based, easy to use, online reporting feature allows you to:

- Have visibility of your postage expenditure by class and format
- Extract information and present simple graphical analysis
- Monitor spending to identify waste e.g. overuse of first class or large letter format

### Better connected

The new Parcelsend can now connect to a secure server via LAN, PC or Wi-Fi connection. This enables faster communication and allows services such as postal tariff changes, software updates and slogans to be downloaded quickly and effortlessly to the machine.

### Easy to use

All controls are fully integrated on one clear control panel with user friendly instructions. This will guide the operator through each stage of processing your mail. This will make using the machine very easy and useful to everyone.

### Correct postage - every letter, every time

The Parcelsend incorporates a 7kg integrated weighing platform, freeing up desk space. This will guarantee that each item that is franked has the correct postage value.
