Connect+® 500W

pitney bowes

Make your job simpler, be more productive.

Your work day is complicated.

Meeting your office deadlines for billings, statements and customer notifications is critical.

It can be difficult when you have to juggle different types of mail and ensure that every piece has the correct postage and tracking barcode when required. Every job needs to be done right, and done on time. Meet the daily challenge with the Connect+ 500W mailing system.

Simplify it with the Connect+ 500W mailing system.

The Connect+ 500W helps you meet your daily deadlines and keep up with ever-changing Postal rules. With its advanced technology, your mailing efforts are simplified, for both everyday mail and for special mailing needs.

The Connect+ 500W:
- Handles mail with mixed sizes, thicknesses and weights, eliminating many manual steps
- Simplifies shipping by handling small and large parcels at the best rate
- Provides an advanced level of technology for the precision and accuracy you need
- Saves money with standard graphics printing for return addresses or promotional messages

Handle your time sensitive projects with ease.

High performance: The Connect+® 500W mailing system is fast enough for your biggest jobs, yet nimble enough to help you with complicated work. It will seal envelopes up to 16mm while printing postage at up to 120 letters per minute.

Weigh-on-the-Way® (WOW®): The Connect+ 500W mailing system simplifies processing of mixed weight and mixed size mail via its automatic weighing and rating. That keeps it simple for you as you no longer need to stop to calculate or guess on postage. It does it for you.

Parcel ready: Process large envelopes and parcels, with options to support Postal requirements for package barcode labels. That makes sending packages simpler.

Remove complexity and improve your tracking abilities.

Intuitive interface: Postal rules change frequently and are often misunderstood. The Connect+ 500W mailing system makes those rules clear with its easy-to-follow menu on the colour touch screen.

Manage finances: The Connect+ 500W makes it easy to track postage costs by helping you manage your cash flow, postage purchases and expense allocations by department or by job. The optional INVIEW® Dashboard simplifies tracking for one or multiple office locations.
